

I would like to see the No Call List as it is now. I do not want to see any changes made to it. If you allow this change, what's to say you will make other exceptions for other organizations, then why have a No Call List? There is a reason I signed up for it. I do not want people calling me. I don't care who they are. I am capable of making my own decisions as to what services I want. And if I did cancel a service at a bank or wherever, there was probably a reason for it.
